KEY FEATURES

- Compatible with most Bluetooth enabled mobile phones.
- Noise-reducing technology for crisp and polished sound.
- Reduces the impact of radiation emitted by mobile phones (on direct contact).
- Luxurious soft-touch finish, for ultimate comfort and feel.

UNPARALLELED CONVERSATION COMFORT

The Bluetooth Retro Phone is specially designed to transform any type of smart/mobile phone into a comfortable and convenient conversational device. The ergonomic design provides incomparable comfort, making the mobile phone practical for any type of conversation in any type of environment.

The ability to leave the mobile phone untouched while talking allows the user to enjoy the convenience of utilizing all other functions of the mobile device mid-conversation, making plans, access emails, browsing the internet and access to calendars easier than ever.

Compatible with most Bluetooth Enabled Mobile Phones.

REDUCES RADIATION

While the debate about potentially harmful mobile phone radiation and the health-related consequences rages on, our Bluetooth Retro Phone offers state of the art technology, with high quality speaker and microphone ensures polished sound while the design helps to reduce the impact of harmful mobile phone radiation.

USING YOUR RETRO PHONE

- Step 1: Connect the Retro Bluetooth Phone to the USB Cable and plug into computer. Allow it to charge for 6-8 hours before the first use.
- Step 2: You will need to pair the Bluetooth Retro Phone with your cell phone (Bluetooth pairing is the process of establishing a wireless link between two devices). Refer to your cell phone manual for instructions on how to use the Bluetooth pairing function on your phone.
- Step 3: Press and hold the silver button on the Bluetooth Retro Phone. After about 5 seconds, the blue LED indicator light will illuminate briefly and the Bluetooth Retro Phone will make a short sound. Continue holding the silver button for another 3 to 4 seconds until the blue LED starts to blink rapidly. When the blue LED is blinking rapidly the Bluetooth Retro Phone is in pairing mode.
- Step 4: Follow your cell phone's instruction manual. This normally involves going to "Setup", "Connect", "Connection" or "Bluetooth" menu on your cell phone and then selecting the option to "Look for Device" or "Discover" to initial the Bluetooth pairing process.
- Step 5: Your cell phone will scan for local Bluetooth devices and should locate the Retro Bluetooth Phone in about 10-20 seconds.
- Step 6: When you pair your cellphone with the Retro Bluetooth Phone it will prompt you to enter a PIN– enter "0000".
- Step 7: At this point, you should be able to place a call using your cell phone keypad, phone book, or Voice dial and use Retro Bluetooth Phone instead of your normal cell phone handset. The Retro Bluetooth Phone should function much like any handsfree headset.
- To answer an incoming call, press the silver button.
 - To end the current call, press the silver button.
 - To Turn Off the Retro Bluetooth Phone press and hold the silver button for about 3 seconds until you hear short sound and the blue LED turns off.

TROUBLESHOOT TIPS

Problem	Possible Solution
Unable to turn the Bluetooth Retro Phone On	Ensure the Bluetooth Retro Phone is sufficiently charged
Unable to pair the device using Bluetooth Technology	Ensure the Bluetooth Retro Phone is sufficiently charged
	Ensure that Bluetooth option on the Bluetooth Retro Phone & the mobile phone is turned on
	Ensure that you enter the correct PIN (0000) on your cell phone, when prompted to.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
